SUMMARY

Final-year BCA student (CGPA 8.4) with hands-on experience in data analysis, business intelligence, and visualization. Proficient in Python, SQL, Power BI, and Excel. Skilled at extracting actionable insights from complex datasets and presenting data-driven findings to stakeholders.

EXPERIENCE

Data Analyst Intern | Labmentix March 2025 – May 2025

- Performed end-to-end data analysis including data cleaning, exploratory analysis, and visualization using Python (Pandas, Matplotlib) and SQL to support business decision-making
- Extracted actionable insights from real-world datasets and presented findings to stakeholders in a clear and structured manner
- Identified trends and patterns in business data to provide recommendations that improved operational outcomes

Product Growth Intern | Apnibus June 2025 – August 2025

- Analyzed customer behaviour data to identify drop-off points and optimize conversion funnels, improving retention and bookings
- Tracked and reported campaign KPIs across Meta Ads and Web Engage platforms, translating data into business recommendations
- Collaborated with cross-functional teams to align analytical findings with marketing and product strategy

Operations and Marketing Intern | Asiatic Electrical & Switchgear Pvt. Ltd. July 2024

- Improved cross-team workflows contributing to a 10% operational efficiency gain through data-backed process analysis
- Analyzed marketing campaign performance metrics to optimize customer engagement and business outcomes

PROJECTS

Tech Hiring & Layoffs Analysis (2000–2025) | Python, Pandas, SQL, Seaborn, Matplotlib, Power BI github.com/Keshav540/tech-layoffs-analysis

- Conducted exploratory data analysis on 25 years of workforce data (532 records, 20+ companies) to uncover hiring trends, layoff patterns, and macroeconomic correlations
- Identified key business insights: 15x workforce growth over 25 years, 670,000+ hires at peak in 2021, and 200,000+ layoffs in 2022–23 correction
- Analyzed customer and industry behaviour patterns across economic cycles including the dot-com crash, 2008 financial crisis, and COVID-19
- Built an interactive desktop dashboard to enable dynamic exploration of business intelligence findings

Tech Layoffs — SQL Data Analysis & Cleaning | MySQL, Window Functions, CTEs github.com/Keshav540/data-analytics-portfolio

- Cleaned and analyzed a global layoffs dataset using SQL — removing duplicates, handling NULL values, and standardizing categories
- Used Window Functions and CTEs to rank companies by layoffs, identify monthly trends, and surface industry-level patterns

Additional projects (Excel Dashboard, Power BI, Web Scraping, World Population Analysis): github.com/Keshav540/data-analytics-portfolio

SKILLS

Technical: Python, SQL (MySQL), Power BI, Microsoft Excel, Pandas, Matplotlib, Seaborn, Git, GitHub, Web Scraping
Analytics: Exploratory Data Analysis, Data Cleaning, Business Intelligence, Data Visualization, Dashboard Design, Customer Behaviour Analysis, KPI Reporting, Statistical Analysis, Trend Analysis
Soft Skills: Stakeholder Communication, Data Storytelling, Analytical Problem Solving, Cross-functional Collaboration
AI Tools: ChatGPT, Claude (Anthropic), GitHub Copilot, Gemini, Generative AI for data analysis and productivity

EDUCATION

Bachelor of Computer Applications (BCA) — Final Year | CGPA: 8.4 JIMS Vasant Kunj, New Delhi

CERTIFICATIONS

- Tata Data Visualisation: Empowering Business with Effective Insights — Forage | Feb 2025
- Business Analysis Foundation — LinkedIn Learning | Feb 2025

EXTRA-CURRICULAR

Public Relations Director | NSS Cell, JIMS Vasant Kunj | Feb 2024 – Present

- Led data-backed campaigns increasing volunteer engagement, managed NGO partnerships and event logistics.
